

Transition Guide

An easy start to Real Food Blends®

Welcome to Real Food Blends

We hope you'll enjoy your Real Food Blends meals and more. Our products contain consciously chosen, real food ingredients, blended for people with feeding tubes.

By using this guide as a baseline for starting Real Food Blends, we hope to make the transition as easy and simple as possible.

Our Story

Inspired by their young tube-fed son, AJ, Julie and Tony Bombacino believed that we all deserve real food. They wanted to create a company that provided easy access to 100% real food meals and nutritional variety to tube-fed people and their families, at home or on the go.

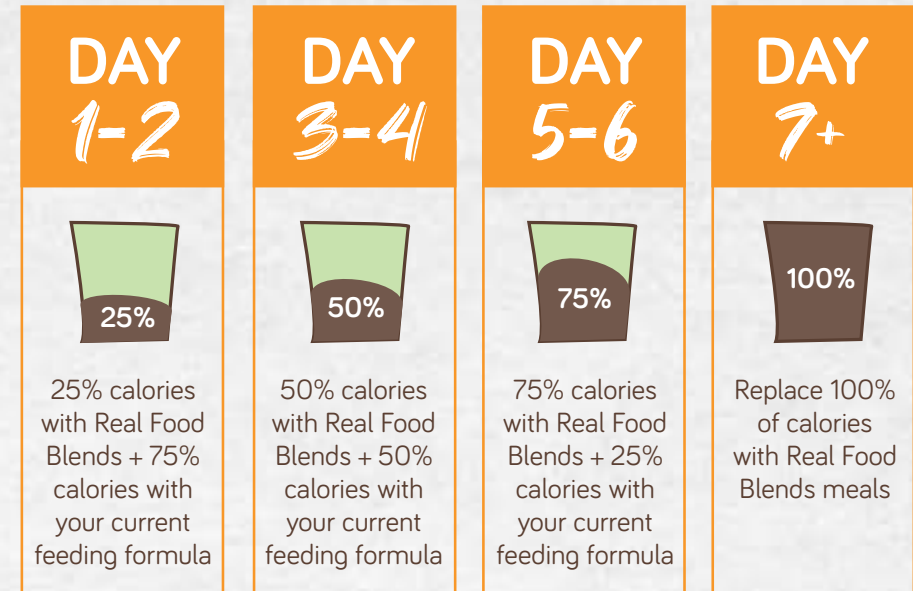

An Easy Transition

If this is your first time using real food, you'll see that the consistency of Real Food Blends is thicker than your traditional tube feeding formula. This is intentional, as having a thicker consistency may help improve signs of GI intolerance.

On the right is an example schedule of slowly transitioning to Real Food Blends.

Always consult with your medical team before making any changes to your diet.

Real Food Blends Can Be Administered via the Following Methods:

BOLUS

PUMP

GRAVITY BAG

For all 6 updated Real Food Blends meals, 2 Real Food Blends Select meals and Mini snack: Use a 12 Fr G-tube or larger

Real Food Blends is made with whole food ingredients.
If consistency with gravity or pump feeding is a concern, dilute with fluid.

Consult your medical team before making any changes to your tube feeding plan.

Administration Videos

Our easy-to-follow educational videos will guide you step-by-step through different tube feeding administration methods.

Scan the QR codes below to view the videos on our Real Food Blends YouTube channel.

BOLUS

PUMP

BOLEE® BAG

youtube.com/realfoodblends

Note: Our pump video currently indicates the use of 14 French G-Tube or larger for our Real Food Blend meals. You can now use a 12 French G-Tube or larger with our 6 updated Real Food Blend meals, 2 Real Food Blends Select meals and Mini snack.

Nutritional Variety from 100% Real Food

Bring variety back to mealtime and nurture your body, your way. Real Food Blends puts the power to choose back into your hands, with 8 meals and 1 snack that can be used:

- ✓ As a primary source of nutrition
- ✓ With conventional formula
- ✓ With a home blended diet

No dairy,
nut, or soy
ingredients

No added
color, flavor,
or synthetic
ingredients

No added
sugar* or
salt**

*Not a low-calorie food **Not a sodium-free food

Real Food Blends products are 100% real food made with 5 to 8 simple ingredients, with no added synthetic vitamins or minerals. Real Food Blends meals are not nutritionally complete. If you use Real Food Blends as primary source of nutrition, multivitamin & mineral supplementation is required. Talk to your healthcare team about adding a multivitamin & mineral supplement, as well as an additional calcium and sodium source.

Savor What's Real

Real Food Blends meals and snack are the closest to homemade blenderized tube feeding[†]

Nutrition from real:

- ✓ Protein sources
- ✓ Vegetables
- ✓ Grains
- ✓ Fruits
- ✓ Fat sources

5-8
simple ingredients
in each pouch

Nutrition You Can Stomach

A growing body of evidence indicates that Blenderized Tube Feeding may improve common symptoms of formula intolerance, such as:

Nausea and vomiting^{1,2}

Gagging/retching^{3,4}

Reflux associated with tube feeding^{5,6}

Bowel Irregularity^{1,7}

Blenderized Tube Feeding may support improved oral intake⁵
